

## **Extension ideas**

### **The meeting of the dinosaurs - 100 million years ago**

#### **Further information about the source of the activity:-**

The footprint puzzle is an activity that has been used by science teachers since the mid-1960's and which was included in the text *'Investigating the Earth' by the Earth Science Curriculum Project (ESCP)*.

The footprints drawing was based on the *Paluxy dinosaur tracks* found in rocks in Texas.

**Paluxy River dinosaur tracks, Texas**
